Conspicuous nose pores

How to reduce them

Complexions otherwise flawless are often ruined by conspicuous nose pores.

In such cases the small muscular fibres of the nose have become weakened and do not keep the pores closed as they should be. Instead, these pores collect dirt, clog up and become enlarged.

To reduce enlarged nose pores: wring a cloth from very hot water, lather it with Woodbury's Facial Soap, then hold it to your face. When heat has expanded the pores, rub in very gently a fresh lather of Woodbury's. Repeat this hot water and lather application several times, stopping at once if your nose feels sensitive. Then finish by rubbing the nose for thirty seconds with a lump of ice.

Notice the improvement the very first treatment makes a promise of what its steady use will do.

Do not expect to change in a week, however, a condition resulting from years of neglect. But use this treatment persistently. It will gradually

reduce the enlarged pores until they are incon-
